Thanjavur, India

PROFESSIONAL SUMMARY

I am an enthusiastic ECE fresher with a strong passion for electronics, IoT, and automation. I have hands-on experience with various programming languages and software tools, and I'm eager to apply my knowledge in a dynamic and forward-thinking company. My goal is to contribute to innovative solutions that solve real-world challenges while continuously learning and growing in my field.

EDUCATION

BE Electronics and Communication Engineering

SRM TRP Engineering College — CGPA | 7.86

11/2021 - 05/2025 Trichy

HSC

Best Matric Higher Secondary School — Percentage| 75.3%

06/2020 - 03/2021 Thanjavur

SSLC

Yagappa Matric Higher Secondary School — Percentage |62.4%

06/2018 - 04/2019 Thanjavur

INTERNSHIP EXPERIENCE

Machine Learning Intern

e-soft IT Solutions — 07/2024 - 08/2024 Trichy

An IT solutions company focusing on providing technological innovations

- Completed an on - site intern in machine learning and gained hands on experience with specific tasks like data cleaning,data analysis and data visualization

Networking System Intern

BSNL — 06/2023 - 07/2023 Trichy

Internship experience at a major telecommunications company

- I completed an internship at BSNL, gaining practical knowledge in telecom and networking systems.
  It covered exchanges, broadband, and mobile communication technologies.

PROGRAMMING LANGUAGES

Java HTML Mysql Oops Python JavaScript

Spring Boot Css

SKILLS

Technical skills

Internet of Things, Embedded systems, Networking Systems

Soft skills

Quick learner,Team work,Good listener

CERTIFICATION

Image Processing Onramp - Mathworks

Deep learning using Pytorch - Coursera

Python training programme - Viwise Tech Softwares

Networking Essentials Programme - CISCO Networking Academy

Full Stack Development - Unique Innovibe Solutions

PROJECTS

4 - Port Octagonal Shaped MIMO antenna for UWB Applications

02/2025 - 05/2025 Trichy

Project focused on enhancing wireless communication performance

- This system is designed and simulated by CST microwave studio (HFSS).
- It offers high speed, reliable wireless communication with wide bandwidth and low interference ideal for modern UWB Applications

RF Vehicle Speed Control & Street Light Automation

02/2023 - 03/2023 Trichy

Projects focusing on modern automation solutions

- Developed an RF-based vehicle over speed controller
- Created a vehicle sensing street light automation system using sensors
